Winter Penguin Mini Memory Game

Tallyboo Press • you do not need to print this page

PRINTING

Print this file ONCE. Every picture is already on two cards, so a single print gives you every matching pair — you never print twice. Use Actual Size (not Fit to Page), on white card stock if you have it. This file is US Letter. Use Actual Size so the cards print at the right size on A4.

Print SINGLE-SIDED. A double-sided printer backs each card with another card and the deck cannot be used.

The file is 4 pages. Page 1 is this one, so you print 3 sheets. Cut along the dashed lines. Up to four cards a sheet.

HOW TO PLAY

Lay one game's cards face down in a grid. Take turns turning two over. A match is kept; anything else goes back face down.

With a very young child, start with six pairs face UP and just find the two that are the same. Add pairs as they get quicker.

For personal and single-classroom use. Please do not resell or redistribute the files.
